

# CHEMICAL FLOATER

The chemical floater is designed for use with Bromine or Chlorine slow dissolving tablets. The large capacity floating chlorinator can be used with 1" or 3" chlorine tabs. An adjustable feed ring controls the chemical distribution into pool. The chemical floater is made of U.V. resistant plastic for many seasons of use.

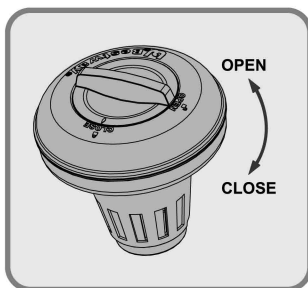

## CAUTION:

1. Use only one type of Chlorine or Bromine in the Chlorinator. Fire and/or explosion may result from mixing pool chemicals.
2. All chemical use should follow the chemical suppliers warnings and directions.
3. Do not use floating chemical dispenser while pool is in use.

## ASSEMBLE ILLUSTRATION

Twist cover to open position.  
Place tablets inside.

Close the cover.

Rotate the adjustable feed ring  
to the desired flow rate.
