CLEANING CHEMICAL
PRODUCT RANGE
FOR A SUSTAINABLE
FUTURE

Eco Endeavour is manufactured for us by one of Britain's leading cleaning chemical manufacturers who is also one of the few UK companies to be awarded both the ISO 9001:2015 Quality Standards and the prestigious ISO 14001 Environmental Standard.

Caterbar have always been committed to the industry's highest environmental standards, not just within its own factory and warehousing, but also with its manufactured products. The Eco Endeavour Range was introduced for those customers looking for selected products balancing minimum environmental impact with maximum efficacy.

The products featuring in Eco Endeavour range are:

- > **Eco Daily Toilet Cleaner**
- > **Eco Floor Maintainer**
- > **Eco Lemon Floor Gel**
- > **Eco Orange Cleaner**
- > **Eco Biological Washroom Cleaner**
- > **Eco Biological Blocks**
- > **Eco Washing Up Liquid**
- > **Eco Grease Trap Maintainer**
- > **Eco Hygiene Hand Wash**
- > **Eco Odour Digester**

There is a product in every area that users are likely to need, from dealing with toilet odours, to maintaining hard floors or cleaning carpets, degreasing hard surfaces, or for simply washing hands. Eco Endeavour range covers it all.

Our manufacturer takes responsibilities towards the environment very seriously: As well as the ISO 14001 Environmental Standard, our Eco Endeavour factory is a member of the Green Business Network; we recycle all packaging, plastics as well as cardboard; and of course, our environmental policy means that we comply with REACH and all current water authority regulations.

Eco Endeavour range is available now, so contact us today.

The vast majority of Eco Endeavour plastic containers are manufactured by Alpla UK using a high level of recycled polymer. The aim being to develop and implement sustainable bottle packaging long into the future. Using their extensive bottle manufacturing experience, Alpla UK have introduced the use of recycled polymers to the industrial cleaning chemicals sector.

Caterbar's new Eco Endeavour cleaning chemical range is supplied to the market place in plastic containers made from (PCR) Post Consumer Recycling Polymers, recycled entirely within the UK. A successful rollout of these recycled materials ensures that all Caterbar Member Distributors will meet the future demands and expectations of retailers and consumers.

Probiotic Enzyme Range

Eco Endeavour by Caterbar includes a range of probiotic based products. Products containing probiotics have seen a vast uplift in recent years. Probiotics work by using eco friendly bacteria to colonise surfaces. Enzymes are then produced which break down organic matters such as carbohydrates, fats and proteins. By doing this, these products are able to effectively remove soiling for a long-term cleaning effect and help to eliminate unpleasant odours. Due to the non-corrosive nature of probiotic cleaners, surfaces are not damaged by their regular use.

The key benefits of using probiotic cleaners include cost reductions, health benefits and a reduction in environmental impact. These products use a sustainable source of UK cultivated enzymes which have a minimal environmental footprint. As always, cost effectiveness is key when selecting cleaning products. Once the surfaces are colonised, the bacteria continues to work long after the product is applied. This reduces the volume of product required and, as a result, costly labour time. Bacteria can reach hard to access areas where conventional products would not be as effective, such as in grouting, floor imperfections, grease traps and carpet underlay.

ECO BIOLOGICAL WASHROOM CLEANER 5L & 750ml
Odour eliminator

ECO BIOLOGICAL URINAL BLOCKS 1.1KG
Water soluble cleaning and deodorising

Eco Endeavour Biological Washroom Cleaner

- Breaks down organic soiling in the washroom environment
- Eradicates odour issues and blockages
- Enables significant water saving
- Safe to use with waterless urinals, Eco Endeavour Biological Urinal Blocks and compatible with septic tanks

Eco Endeavour Biological Urinal Blocks

- Removes and prevents build up of limescale and uric acid within pipe systems
- Eradicates odour issues and blockages
- Proven to save up to 100,000 litres of water per urinal per year
- Safe to use with waterless urinals and compatible with septic tanks

Eco Endeavour Grease Trap Maintainer

- A non-toxic drain and gully cleaner and maintainer
- Prevents build up of grease and fats that cause odours and blockages
- Improves drain flow rates and effective on all types of drains and small bore pipes
- Compatible with septic tanks

Eco Endeavour Odour Digester

- Effective where soiling such as bodily fluids or spilt beverages have absorbed into the fabric or flooring
- Ideal for preventing odours in small bore pipes from sinks, baths, showers
- Multi use product containing a pleasant fragrance
- Non-harmful and compatible with septic tanks

ECO GREASE TRAP MAINTAINER 5L, 10L & 20L
Effective at breaking down fatty waste

ECO ODOUR DIGESTER 1L & 5L
Biological stain and odour eradicator

Water Based Range

Eco Endeavour by Caterbar represents a revolutionary step in environmental cleaning. These products are powerful, effective and safer than many cleaning chemicals in use. All are non-toxic, non-flammable, non-carcinogenic and non-harmful to marine and aquatic life. Made from plant based, environmentally friendly ingredients to be fully user-friendly and biodegradable, they comply with all the current and forthcoming legislation including EC Detergent Regulation 648/2004 and REACH 1907/2006.

Eco Endeavour Daily Toilet Cleaner

- Contains citric acid to reduce environmental impact, whilst still effective as a descaler
- Powerful, long lasting single fragrance solution when used with Eco Endeavour's biological washroom range

Eco Endeavour Orange Cleaner

- Neutral pH, with no hazard classification
- Highly concentrated cleaner and degreaser, suitable for use on a wide variety of surfaces
- Dilutes up to 100:1 or available in ready to use 750ml form

Eco Endeavour Lemon Floor Gel

- Neutral pH, with no hazard classification
- A thixotropic liquid with a powerful, zesty, long lasting fragrance
- Effective on all hard floors at removing oil, grease and grime

Eco Endeavour Floor Maintainer

- Neutral pH and phosphate free
- Pleasantly fragranced
- Removes scuffs or marks and protects floors, leaving a high gloss finish

Eco Endeavour Hygiene Hand Wash

- Neutral pH and phosphate free
- Kind on hands
- Non-tainting, odourless and ideal for use in catering environments

Eco Endeavour Washing Up Liquid

- Neutral pH and odourless
- Formulated to minimise the impact on the environment whilst not compromising on performance or quality.
- Will not kill bacteria in septic tanks

ECO DAILY TOILET CLEANER 1L
A daily deodoriser for toilets and urinals

ECO ORANGE CLEANER 5L & 750ml
Versatile zesty cleaner. Neutral PH

ECO LEMON FLOOR GEL 5L
Use on linoleum, PVC, sealed wood, cork and most hard surfaces

ECO FLOOR MAINTAINER 5L
clean and protect emulsion polished floors

ECO HYGIENE HAND WASH 500ml & 5L
Luxury pearlescent soap for use in most bulk fill dispensers

ECO WASHING UP LIQUID 5L
A detergent for hand dishwashing.
